

I am concerned that the quiet time around supper that the Wisconsin No Call List affords is under fire. I do not want what happened during the election period to happen everyday from telemarketers. I had several messages on my voice mail encouraging me to vote one way or another. I do not want marketing statements to fill my voice mail or disrupt my quiet time after work and before going to bed early. If the marketers want to sell me something, they can send it in the mail. Please maintain Wisconsin's No Call List. Thank You!
